## EDUCATION

**Full Stack Web Developer**
Prefleaf by Masai Bengaluru
June 2023-present

**Bachelor of Technology**
Mangalayatan University
March 2018 - March 2022

## TECHNICAL SKILLS

RESTful APIs | MongoDB | Express.js |
Node.js | Redux | React | Mongoose |
HTML5 | JavaScript | CSS3 |
Tailwind CSS | DOM |
Responsive Web Design | Git |
Chakra-Ui

## SOFT SKILLS

Problem Solving |
Time Management |
Effective Communication

## CERTIFICATIONS

- Hukumu Interview Hackathon
- Zoom Marathon Challenge

# Harshit Sharma

**Full Stack Web Developer**

## PROFESSIONAL SUMMARY

Dynamic Full Stack Web Developer with robust skills in JavaScript, React.js, Node.js, and MongoDB, coupled with a proven ability to learn new technologies rapidly, including Generative AI. Demonstrates strong problem-solving and collaboration skills, ensuring delivery of efficient, scalable web applications while continuously enhancing development processes.

## WORK EXPERIENCE

**Blockonventures**
React Developer    |    November 2024–present
**Job responsibilities:**

- Developing responsive web applications using React, managing state with Redux Toolkit, and integrating APIs to deliver scalable and maintainable solutions.

**Devybe**
Backend Developer    |    January 2025–present
**Job responsibilities:**

- Designed and developed RESTful APIs to enable seamless user authentication and event management, ensuring secure access to backend services.
- Implemented efficient JWT-based authentication mechanisms, improving the security and integrity of user and admin operations.

## PROJECTS

### 1. Reliance digital ecommerce | 🌐 | ⌨
**HTML5 | CSS3 | JavaScript | Redux | Git | React | RESTful APIs | Responsive Web Design**

- Developed a scalable e-commerce platform clone focusing on consumer electronics.
- Implemented efficient user authentication, advanced filtering options, and a responsive design.Utilized Redux for state management and Thunk for handling asynchronous operations.

### 2. NuFi Wallet Web | 🌐
**HTML5 | CSS3 | JavaScript | Responsive Web Design | React | Redux | Git**

- Created a decentralized multi-chain crypto wallet web application from scratch..Integrated multi-chain transactions, swapping functionality, and fiat on-ramp/off-ramp features.
- Ensured a secure and responsive front-end architecture collaborating with backend and blockchain teams.Implemented real-time notifications and transaction history export.

### 3. Devybe | 🌐
**node.js | jwt | RESTful APIs | Git | Express.js | MongoDB | JavaScript**

- Developed an event-based social media web app backend using Node.js, Express.js, and MongoDB, implementing RESTful APIs and JWT authentication for secure access. Built an admin panel for category & event management, ensuring efficient backend operations.
